

VALE EN SUITE DOOR

The Vale En Suite Door is specifically engineered for mental healthcare environments, combining safety, hygiene, and durability with aesthetic versatility. Having been developed by working closely with clinical teams and experts in mental health, its design addresses the unique needs of both patients and staff safety.

VALE EN SUITE DOOR

The Vale En Suite Door offers aesthetic, therapeutic, and environmental benefits, all while ensuring safety, security, and ease of maintenance and replacement.

KEY PRODUCT FEATURES OF THE VALE EN SUITE DOOR:

- **Soft construction crafted** with a soft yet durable material that helps protect patients and staff from injury.
- **Reduced ligature design** minimizes ligature points to enhance patient safety.
- **Mounting options** for versatile installation with options suitable for both refurbishment projects and new builds.
- **Excellent infection control** and smooth, seamless design prevents dirt accumulation, ensuring superior hygiene.
- **Fire-rated materials** made from fire-rated materials that are both crib-tested and self-extinguishing for added safety.
- **Customizable designs** available in a variety of printed designs to meet specific aesthetic requirements.
- **Fully welded construction** with no stitching, ensuring maximum durability and hygiene.

APPLICATIONS:

- Mental Healthcare facilities | Hospitals Clinics | Rehabilitation centres.

BENEFITS:

- **Patient and staff safety** with soft construction and reduced ligature design.
- **Hygiene** controlled seamless design with no folds or seams reduces dirt accumulation.
- **Customisation** for aesthetic flexibility with a choice of printed designs to match any environment.
- **Fire safety** crib-tested, self-extinguishing materials.

Working across a broad range of projects nationally and globally, you can rely on our expertise and experience for the safety of your patients and building.
