

## VALE WELLBEING BLIND

The Vale Wellbeing Blind combines innovation and compassion to deliver a product tailored to the demands of mental health care facilities.

# VALE WELLBEING BLIND

The Vale Wellbeing Blind is a revolutionary solution designed to meet the unique needs of mental health hospitals.

Developed with safety and functionality in mind, this blackout blind provides a secure and effective option for patients sensitive to light, while mitigating the risks associated with conventional blinds, such as ligature and attack concerns.

By prioritizing safety without compromising on comfort or control, it ensures a secure and tranquil environment for both patients and staff.

## KEY PRODUCT FEATURES OF THE VALE WELLBEING BLIND:

### ● Enhanced Safety

The blind is fully encased behind our attack-resistant glazing, eliminating access to moving parts and ensuring maximum safety in high-risk environments.

### ● Versatile Installation

Compatible with all our window systems, the Vale Wellbeing Blind can be seamlessly integrated into double or triple glazing units, offering flexibility for diverse facility requirements.

### ● User-Friendly Operation

Available with wall-mounted or remote controls for ease of use. Additionally, a nurse base override control provides staff with the ability to manage the blind's operation when needed, ensuring both patient comfort and safety.

### ● Light-Sensitive Care

Designed specifically for light-sensitive patients, the blackout functionality helps create a calming and restful environment, supporting their wellbeing and recovery.
