

VALE WINDOW SYSTEM U

The Vale Window System has been developed for the healthcare sector by working closely with clinical teams and experts in mental healthcare – ensuring the product is safe, secure and promotes recovery.

VALE WINDOW SYSTEM U

The Vale Window System offers aesthetic, therapeutic, and environmental benefits, all while ensuring safety, security, and ease of maintenance and replacement.

KEY PRODUCT FEATURES OF THE VALE WINDOW SYSTEM U:

- **Highest performance** U-value of 0.95, making it the highest-performing healthcare window on the market.
- **Reduced ligature design** enhanced safety with a design that minimizes ligature points.
- **Care focused design** engineered to ensure patient comfort and wellbeing with a stable indoor climate while offering maximum amounts of safe fresh air.
- **No internal gaskets** eliminates the ligature risk posed by gaskets.
- **Colour options** available in any RAL colour to match specific aesthetic and branding requirements.
- **Excellent infection control** fully welded stainless steel mesh for easy cleaning and superior infection control.
- **Attack resistant** robust construction to provide enhanced security, helping to keep patients and staff safe.

TESTING:

 **UK and EU:**

BRE informed choices | ANNEX B

 **USA and Canada:**

AAMA 801-14 | NAFS 22 and Canadian Supplement-19

APPLICATIONS:

- Hospitals | Mental healthcare facilities | Clinics | Care homes.

BENEFITS:

- **Energy efficiency** reduces energy consumption, aiding in achieving carbon net zero targets by 2040.
- **Patient safety** reduces ligature risks and enhances security with attack resistant features.
- **Hygiene** easy-to-clean design supports stringent hygiene protocols.

SPECIFICATIONS:

- Thermal Performance, U-value: 0.95.

MATERIAL:

- Stainless steel mesh, fully welded, aluminium frame.
- Steel composite option available for high secure environments.
